

BOTSFORD HOSPITAL

Botsford Health Care is excited to announce that we are making Aflac part of the voluntary benefits available to you at group rates through payroll deduction.

Aflac's programs pay cash benefits directly to you, for you to spend as you see fit. They pay regardless of your medical coverage; there is no coordination of benefits.

The plans available to you at group rates are:

Accident Indemnity:

Pays you cash when you seek medical treatment for a covered accident (which include but are not limited to: broken bones, cuts, poison ivy, sprains, etc) including initial treatment, hospital confinement, major diagnostic exams, x-rays, surgical benefits and much more! Protects you both on and off-the-job. You may also cover your spouse and/or eligible children.

Sickness Indemnity:

Pays you cash when you seek medical treatment for a covered illness, this plan also includes coverage for childbirth. Benefits include: physician office visits, hospital confinement, major diagnostic exams, surgical benefit and ambulance benefits. You may also cover your spouse and/or eligible children.

Hospital Protection:

Pays you cash when you are confined to a hospital for either an accident or an illness, also includes coverage for childbirth. Benefits in addition to hospital confinement include: diagnostic exams and surgical benefits. You may also cover your spouse and/or eligible children.

Aflac representatives will be available during our open enrollment period November 15th – November 30th to explain the benefits available, answer questions and enroll you in any of the plans you are interested in. If you have questions prior to open enrollment, please contact our Aflac agent **Brandon Wilson** at (517) 223-4443 or email at brandon_wilson@us.aflac.com.
